

AB1, ABERDEEN

50,000ft² office space
extension and refurbishment

CLIENT
Aberdeen Asset Management
(Aberdeen Standard)

Following competitive interview, CDA worked closely with Aberdeen Asset Management on the extension and refurbishment of a 50,000 ft² office development in Aberdeen city centre.

The existing building was dated and compromised by low ceilings and inefficient services, as well as a poor entrance and common parts experience.

Existing office space was refurbished with new core areas, a third floor office extension and a new three storey entrance.
