Bath Press is the redevelopment of the former printing press in Bath for Aberdeen Standard Investments. The development consists of 30 3 storey terraced townhouses, 250 Build to Rent apartments over 5 storeys and 16,000sqft of commercial space. The existing printing press façade on Lower Bristol Road has been retained and integrated into the design of the apartments.

High quality landscaped areas surround the buildings providing a range of amenity across the site. The apartments also have access to landscaped roof terrace, and each of the townhouses has a private garden.
