

**ABI, Aberdeen**  
**Completed 2016**

50,000ft<sup>2</sup> office space  
Extension and refurbishment

**Client**  
Aberdeen Asset Management (Aberdeen  
Standard)

Following competitive interview, CDA worked closely with Aberdeen Asset Management on the extension and refurbishment of a 50,000 ft<sup>2</sup> office development in Aberdeen city centre.

The existing building was dated and compromised by low ceilings and inefficient services, as well as a poor entrance and common parts experience.

Existing office space was refurbished with new core areas, a third floor office extension and a new three storey entrance.
