AWARDS

2017 Scottish Home Awards Winner
Apartment Development of the Year
Small Housing Development of the Year

Horne Terrace is the redevelopment of a prominent corner site in the Fountainbridge area of Edinburgh. Our client was S1 Developments.

The narrow site is adjacent to the Union Canal and so the importance of the Ancient Scheduled Monument and the current canal use were incorporated during the design of the new apartment building and townhouses.

The linear site led to a mix of five and four storey apartment building with three storey townhouses adjacent, providing seventeen units ranging from studios to four bedrooms.

High quality materials were used, including ashlar stone, brick and metal cladding.
