

33 CASTLE STREET  
EDINBURGH

Office refurbishment

CLIENT  
CBRE

The refurbishment of the third floor offices to 33 Castle Street, Edinburgh – a mixed use building CDA completed in 2003.

Comprising of a 5000 sq ft Cat A office space on the corner of George Street and Castle street, the refurbishment includes the addition of WC and shower facilities, and the transformation of the office with a defurb fit-out.

The structure is exposed along with the galvanised services to give a visually striking and contemporary feel to the new office space.
