Large Housing Development of the Year
2018 Winner Homes for Scotland
Awards for *Private Development of the Year (Medium)*

The former BBC HQ site in Glasgow's west end was masterplanned for West Register Realisations and, following the approval of detailed planning, was sold to David Wilson Homes.

CDA retained its position within this development, with 19 high quality townhouses and 75 apartments over four apartment buildings. Existing site constraints resulted in some split-level townhouse accommodation with the four apartment buildings benefitting from open views over the city and the River Kelvin to the north.
